An Invitation to Participate

...in Designing Your Community

Glidden is participating in the 2018 *Iowa's Living Roadways* Community Visioning Program. Iowa State University is gathering information from community members to get residents opinions on how to improve the community's landscape through transportation enhancements.

The goal of the Community Visioning program is to develop a landscape plan that illustrates the vision of Glidden's residents. Resident input is an important part of this process and your ideas about community design and enhancement are extremely valuable to the Glidden Community Visioning committee.
